My topic is MONASTERIES IN EUROPE – HISTORY, TASKS

"And one called to the other and said: Holy, holy, holy is the Lord of hosts; the whole earth is full of his glory."

(Isaiah 6,3)

European cultural history is inextricably linked to the presence of monasteries, especially during the middle Ages. Some of the monasteries were founded as centers of evangelization of peoples, others carried on a program of education, art and architecture, and the making of manuscripts. In addition to serving as religious refuges, monasteries provided sanctuary for the pursuits of art, education, science, and book production.

I often spend time in churches, even though the joy I derive from them is, with my distanced, entirely secular appreciation of what they represent, limited to the aesthetic register.

The most interesting and best preserved monasteries are in Spain, Portugal, France, Great Britain, Germany, Switzerland, Austria, Poland, the Czech Republic, and Italy - all of which are accessible to visitors.

The middle Ages in Europe were amazing.

My famous monastery is today building's SAGRADA FAMILIA, because she is the marvel to future ...
